Answered

Yale College June 26th 1837.

Dear Sir

In a letter dated Vardney Jaffna Ceylon, written to the Missionary Society in Yale College by Geo H Apthorp, he stated that he had sent to our Society in a box for Princeton, directed to the care of Rev H. A. Boardman Phil-a. two idols and a cow as a present to our museum. It is now some time since we received the letter but as yet we have heard nothing from the abovementioned articles. If they are with you or in Princeton at all please to send them on to New Haven immediately, properly put up, and directed to me at the Steamboat Office. Whether they are with you or not I would thank you to write by return of mail or as soon as possible, that other measures may be taken if necessary before we leave College which will take place soon.

Hoping that your Society may prosper and be abundantly blessed

I am respectfully Yours

W. Barlow Baldwin Sec. Mis. Soc.
